

Youth Farm

Dig Deep, Grow Strong

Learn how to grow food in your own garden!

Beginning February 21, 2018, the Marion-Polk Food Share will offer a free six-week gardening class for teens at our 6-acre farm on the Chemeketa campus in NE Salem. At the weekly classes you will learn to plan, plant, maintain, and harvest your own garden.

If you complete the class and join Wild Onions (the Youth Farm's 4-H club), you will get your own garden plot on the farm, as well as the tools and seeds you need to get your garden growing with your favorite fruits and veggies. Regular spring club meetings will include time to maintain your plot and help out on the farm.

Want to grow even more? 4-H club members can also apply to be a part of the summer farm crew, help operate our small farm, develop leadership skills, and earn a stipend.
